PACKAGING

GOGAJI PACKAGING, manufacturer of spiral paper tube, 100% recycled paper board products. Established in 2020 & our firm is based in Faridabad, Haryana. Having an option of choosing from numerous designs, these goods are highly reliable and would give you the best results you could ask for. Be it paper tubes, tape cores, high strength cores or other such goods, these items are made available at economical prices. Supported by a vast warehousing unit, our team arrange every item in a manner, so as to protect them from any kind of damages.

We value our clients' satisfaction and always strive to manufacture the products as per their requirements. Our clients provide us with the sample drawings and the specifications on the basis of which we design and manufacture the paper products. The thickness of the paper, diameter, size, colours and the designs of the manufactured products can vary to accord the clients demands.

PRODUCTS

We offer varied paper products that form the packaging solutions of various industries. We source raw material from the trusted vendors who provides us qualitative raw materials. The packaging paper products are manufactured from eco-friendly and biodegradable papers & cores.

SPECIFICATIONS	MINIMUM	MAXIMUM	OTHER SPECIFICATIONS

ALL PRODUCTS

PAPER CORE | PAPER TUBE

Established Year
2020

Location
FARIDABAD, HARYANA- INDIA

STANDARD PAPER CORES:

These are basic paper tubes used for winding various materials such as paper, plastic film, textiles, and more. They are typically made from recycled paperboard and are widely used across industries.

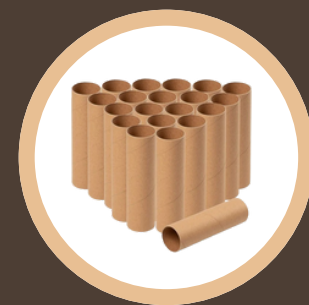

SPECIALTY PAPER CORES:

These are customized paper cores tailored for specific applications. They may have unique characteristics such as moisture resistance, flame retardancy, or enhanced durability to meet specialized requirements.

INDUSTRIAL PAPER CORES:

These are heavier-duty paper cores designed to withstand higher loads and tension. They are often used in industries such as textiles, flexible packaging, tape manufacturing, and paper mills.

TEXTILE PAPER TUBES:

Textile Paper Tubes which are available in various forms of finishing including bull nosing, notching and burnished in varying combinations of colors to meet customer specifications.

PAPER CORE | PAPER TUBE

Established Year
2020

Location
FARIDABAD, HARYANA- INDIA

FILM AND FOIL CORES:

These are paper cores specifically used in the textile industry for winding yarns, threads, fabrics, and other textile materials.

TISSUE PAPER CORES:

These cores are used for winding tissue paper, toilet paper, and other similar products. They are designed to be lightweight yet strong enough to support the wound tissue paper rolls

TAPE AND BARCODE LABEL CORES:

These paper cores are used for winding adhesive tapes, labels, and other similar products. They are often designed with smooth surfaces to prevent damage to the wound material.

MEDICAL PAPER CORES:

These are paper cores manufactured under stringent cleanliness standards for use in medical applications, such as wound dressings, medical tapes, and diagnostic test strips.
